

Get high-quality mechanical seal repairs for all brands from reliable experts

Advanced Process Solutions

We provide expert Mechanical Seal Repair of all major brands, including John Crane, Flowserve, Burgmann and more. With locations in Oakland, NJ, and Charlotte, NC, we are the reliable, convenient single source repair for all styles of mechanical seals.

Our comprehensive library of manufactured design solutions addresses applications in all industries and challenges providing upgrades and replacement seals manufactured to perform better and last longer.

- We inspect, rebuild and test your mechanical seals
- Detailed parts quotation provided prior to rebuild
- Immediate availability of standard seal wear parts
- If you proceed with repairs, the inspection fee will be waived
- After the rebuild, the seal will be pressure tested
- Rebuilt seals include our standard warranty
